Professional Summary

Backend Developer with professional experience building and deploying scalable backend systems using **Django REST Framework** and **FastAPI**. Experienced in developing secure **RESTful APIs**, implementing **JWT** and **OAuth 2.0** authentication, and building asynchronous workflows with **Celery**, **Redis**, and **RabbitMQ**. Proficient in **Docker**, **CI/CD**, and **AWS (EC2, S3, ECR)**, with hands-on experience optimizing API performance and delivering production-ready applications. Strong foundation in **Data Structures & Algorithms** with a focus on writing secure, maintainable, and high-performance backend solutions.

Technical Skills

- **Languages:** Python, JavaScript, C, C++, Java, Dart
- **Backend Frameworks:** Django, Django REST Framework, FastAPI
- **Authentication & Security:** JWT, OAuth 2.0, Role-Based Access Control (RBAC)
- **Async & Messaging:** Celery, Redis, RabbitMQ
- **Databases:** PostgreSQL, MySQL
- **DevOps & Cloud:** Git, GitHub Actions (CI/CD), Docker, AWS (EC2, S3, ECR), Nginx, Ubuntu
- **Frontend & Tooling:** HTML, CSS, Flutter, Tkinter
- **Foundations:** Data Structures & Algorithms, Object-Oriented Analysis and Design, Machine Learning, Deep Learning, NLP

Experience

Python Developer, Softvence Innovation – Dhaka, Bangladesh

Nov 2025 – Aug 2026

- Developed and delivered 500+ REST API endpoints using Django REST Framework and FastAPI for production and client-facing applications.
- Implemented secure authentication and authorization using JWT and OAuth 2.0, including third-party social login integrations.
- Optimized API performance using Redis-based caching, reducing average response times by approximately 30% on high-traffic endpoints.
- Built asynchronous and scheduled background workflows using Celery, Redis, and RabbitMQ, improving application responsiveness and reducing request-cycle overhead.
- Designed and maintained CI/CD pipelines with GitHub Actions and containerized applications using Docker for reliable build and deployment workflows.
- Deployed and managed backend services and supporting infrastructure on AWS, including EC2, S3, and ECR.
- Leveraged AI-assisted development tools to accelerate implementation while independently reviewing, testing, and validating generated code before production deployment.
- Collaborated closely with frontend and mobile developers in an Agile environment and communicated directly with international stakeholders to clarify requirements and deliver features.

Projects

IKON Skills – ikonskills.ac

Django REST Framework, PostgreSQL, Stripe, Celery, Redis, Docker, AWS

- Developed backend modules for an e-learning platform supporting degree programs and micro-credentials, including enrollment, lesson management, progress tracking, and gamification.
- Integrated Stripe 3D Secure and webhook APIs to implement secure, PCI-aware payment flows for course enrollments.
- Developed asynchronous notification and email services using Celery, Redis, and RabbitMQ; deployed services with Docker and CI/CD on AWS.

HelloAppart – hello-appart.com

Django REST Framework, PostgreSQL, Docker, Multi-Tenancy

- Developed a multi-tenant SaaS property management platform with isolated environments per owner, including tenant-aware JWT authentication and role-based access control.

Thundra – thundra.de

Django REST Framework, Stripe, AWS S3, WebSocket

- Developed product, order, promo-code, wallet, and review modules for a full-featured e-commerce platform.
- Contributed to an AI-powered recommendation module and performed load testing with Locust before release.

Problem Solving

Solved 1,200+ Data Structures and Algorithms problems independently: LeetCode (350+), Codeforces (400+, max rating 897), GeeksforGeeks (420+), and 100+ on other platforms, demonstrating consistent self-directed problem-solving practice.

Education

B.Sc. in Computer Science & Engineering, Port City International University, Chittagong

Graduated 2025

Languages

Bengali: Native (speaking, reading, writing) — **English:** Professional working proficiency (speaking, reading, writing), including direct client communication
